

Pool Pumps

We Build Better.™

Hayward® TriStar® VS 950 Omni® & Hayward® TriStar® VS 900 Omni® Ultra-High Efficiency Pool Pumps (HL32950VSP & HL32900VSP)

Hayward® TriStar® VS Omni® ultra-high efficiency pool pumps are the easiest, most affordable way to control a full range of pool and spa equipment - including pumps, heaters, lighting, sanitization, and water features - from a smartphone or tablet.

Seamlessly integrate with most equipment brands to adjust pump speeds, set water temperatures, and turn pool lights on/off from anywhere. Works with popular home automation systems such as Control4®, Crestron®, Elan®, Savant®, Amazon® Alexa®, and Google Home® voice assistance, allowing pool owners the convenience of hands-free pool control.

Additionally, as the #1 rated pool pumps in energy efficiency per the U.S. Department of Energy, these pumps save up to 90% in energy bills - an average of \$1,500 per year - paying for themselves in less than two pool seasons. Their ENERGY STAR® certification means local energy rebates may apply. Designed with an upgraded motor that delivers 30% quieter high-speed operation than other models.

Product Specifications

- **Total Input Power:** 638 W
- **Standby Average Power:** 3 W
- CEE Tier 2 & ENERGY STAR Certified
- **Connected Protocols:** Ethernet, Wi-Fi
- **Platform Compatibility:** Control4, Crestron, Savant, Elan, RTI, URC, Vantage, Amazon Alexa, Google Home, Nest, Home Assistant
